Automatic Border Line

Make luxury borders with handles, tapes, zippers, serged edges, law labels, and decorative quilting. This roll-fed system automatically makes complete closed borders with this combination of integrated machines.

Features & Benefits

- It consists of a combination of modular machines:
- TK107 Decorative Border Machine
- Multi-needle chainstitch sewing head can also add ribbons and decorative elements
- TK212 Handle Attaching Machine
- Attach pre-cut or roll-fed handles in vertical or horizontal position
- TK262 Double-border, Measure, Cut Machine
- Simultaneously over-edge each side and cut border to specified length
- TK230 Automatic Border Closer
- Automatically sew the ends together and extra optional equipment can add a flag law label in the seam if desired
- One operator controls the entire line to produce highly stylish complete border units from rolls of raw materials to cut-to-size closed border sections.
