NC-1001 Binding Machine with Belt Table

Mattresses are taped in one easy motion. After panels are loaded under the sewing foot they are sewn automatically and the conveyor reverses and turns the mattress to complete the process till all four sides are taped. The end result is a finished unit in about 2 ½ minutes.

Features & Benefits

- Double chain stitch sewing head
- Automatic tape feeding and cutting
- Ergonomic engineered work station
- Conveyor belts synchronized with sewing head
- Automatic turning of mattress guided by sensors
- Motorized height adjustment

Specifications

Sewing Head Single needle double chain-stitch

Table Height Min 800 mm

Table Height Max 1400 mm

Binder Included 40 mm

Motor Type Servo needle positioner
