BatchPro programmable panel cutter

The BatchPro programmable panel cutter extends the high throughput benefits of a Gribetz quilter to the panel-cutting operation.

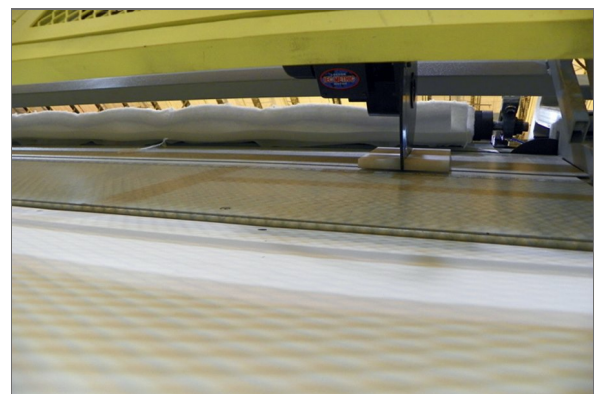

State-of -the-art technology automates the cross cut and trim functions, and communicates with Paragon M series and V16 quilt machines for BatchMode operation that can save you several thousand dollars per year.

Features & Benefits

- Capable of cutting quilted panels up to 3 in (76 mm) thick.
- Single blade slitter
- High-speed capability – accepts quilting machine feed rate of 3 yards (2.74 m) per minute
- Meets all OSHA and CE safety directives
- Control panel functions include:
 - roller – forward/reverse
 - roller jog
 - sweep cut
- High-speed, high-torque electric motors
- Manual sharpener
- Touchscreen control with Industrial Quality Control System

Specifications

Available Cutting Widths 90" (229 cm) or 110" (279 cm) or 136" (345 cm)

Standard Max Length 3" (76 mm)

Voltage Any 3 Phase Voltage (Includes Multi-tap Transformer)

Current (amps) 10,15 or 20 depending on voltage

Air Pressure 90 psi (6.2 bar)

Air Consumption 3 CFM

CE Approved Yes

Height (90" model) 93" (236 cm)

Width (90" model) 152" (386 cm)

Length (90" model) 111" (282 cm)

Repeatability +/- 1/4" (6.4 mm)
