# BM-52 Border Measuring System

Replace slower, labor-intensive peg tables with this compact, portable border-measuring system. It's lightning fast, accurate, and saves space in your factory.

Simple controls automatically advance the border material to desired length in seconds and the section can be trimmed with scissors or optional electric cutting tool.

## Features & Benefits

- Measure Queen size borders in under 4 seconds
- Programmable sizes can be adjusted for length variables due to "material stretch"
- Running speed up to 39 in/sec (100 cm/sec)
- Suggested rate: 31 in/sec (80 cm/sec)
- Optional electric cut-off knife and marking units are available

## Specifications

**Max feed speed** 100" (254cm) per second

**Approximate cycle time per queen** 2.8 SEC

**Max material thickness** 1"(2.54cm)

**Min material thickness** Flat

**Max material width** 24"(61cm)

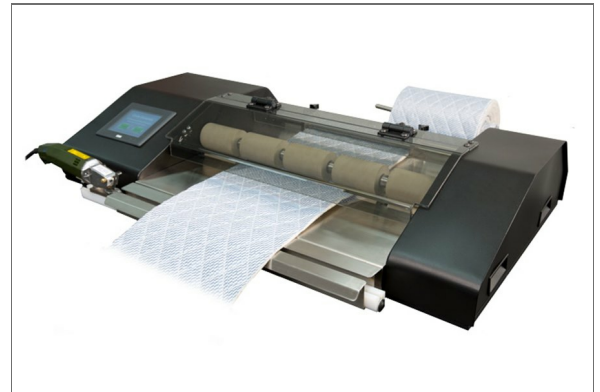

**Accuracy** +/- .125" (3.175mm)

**Voltage** 220 V

**Air pressure** 80 psi

**Air consumption** 0.5 cfm

**Air consumption (cfm)** 3.2

**Weight** 350 lbs (158 kg)

**Shipping dimensions** 6' X 3' (1.82m x .914m)
