GAP7000 Combination Long Arm Label Sewer / Quilt Repair

GAP7000 is a machine combination of a long-arm label sewer and quilt repair that converts from label-sewing mode to quilt-pattern repair with one simple switch. The convenience of this two-in-one machine saves factory floor space and reduces additional operators and maintenance. GAP7000 features automatic thread trimming and operates at a top speed of 1800rpm.

Features & Benefits

- Convert from label sewing mode to quilt pattern repair with one simple switch
- "2-in-1" machine saves factory floor space, additional operators, and additional maintenance
- Automatic under bet thread trimming
- Automatic reverse (label sewing mode)
- Over 2.5" presser foot and needle lift for fast loading and unloading
- 3" of material clearance with presser foot raised
- Extra-large bobbin capacity
- Electronic needle positioning
- 1,800 RPM top speed
- Smooth surface in quilt repair mode
- Power Trac belts retract in quilt repair mode
- Fast, accurate positioning and locating
- Dual Power Trac top belt feed for heavy quilted panels
- Material isn't dragged under presser foot to the repair location, reducing damaged top layers
- 30" capacity from needle to neck of head casting
- Omni-directional presser foot (repair mode)

- Lockstitch sewing head
- Operators quickly and easily reproduce complex sewing patterns, or create their own
- Options:
 - Ergonomic sewing table with height and angle adjust
 - Electronic needle positioning motor
 - GAP-EC Ergonomic sewing chair
 - GAP-AT Air Table
 - Expanded spare parts kit
