

## **25000-010**

### *Air Table*

The perfect complement to any Global Systems Group sewing workstation where operator strain is a concern due to handling heavy quilted panels.

SPECIFICATIONS	25000-010 AIR TABLE
Height min	30 5/8" (78 cm)
Height max	32 7/8" (83.5 cm)
Current	220, 1 ph
Horsepower	3.2
Amps	15
Weight (gross)	840 lbs (381 kg)
Shipping dimensions	99" X 51" X 79" (251 X 130 X 201 cm)
Footprint:	96"x144" (244 X 366cm)

The 25000-010 Air Table is perfect for any Global Systems Group sewing workstation, solving problems related to operator strain while handling heavy quilted panels. This air table will float the heaviest/most dense quilted panels during the flanging, binding, blindstitching processes.

- Innovative "diffuser nozzle" air holes come all the way to the table's edge.
- Creates an evenly distributed pattern of air beneath the quilt.
- Increases air pressure between the quilt and the tabletop.
- Air hole design keeps the air blowers quiet and requires minimal electrical power.
- Solid mirror finish H.D.P.E. tabletops allow panels to virtually glide across the table's surface.
- Reduces operator fatigue due to air lifting the panel off the surface and minimizing its weight.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
