Yield	500+/- labels per 8 hour shift
Weight (gross)	920 lbs / 417 kg
Shipping dimensions	73 X 58 X 65"/185 X 147 X 165 cm

The PALS-2000 gives the operator only one responsibility – to load the label into a nest on the machine. The rest of the machine cycle is automatic, completely deskilling the operation.

- Work-cell automation at an attractive price point.
- Unique pneumatic-clip assembly eliminates label shifts by holding the label securely in place until the sewing clamps apply pressure.
- A variety of label sizes, styles, and shapes can be programmed with either straight or zig-zag stitch.
- Produces sewn labels with the shortest application cycle times.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
