Air consumption (cfm)	6.00 SCFM @ 80PSI
Weight (gross)	490 lbs / 222 kg
Shipping Dimensions	45 X 65 X 37 / 114 X 165 X 94 cm

The POQ-30HJ/NP is a quilt and skip repair machine featuring a straight-stitch lockstitch and electronic needle positioner. It accepts material up to 4" (101 mm) and maintains a presser foot height of 1/2" (12.7 mm).

- 30" (760 cm) clearance under the sewing machine arm allows repair anywhere on the mattress panel.
- Includes electronic needle positioning servo motor.
- Slim Presser foot design gives operator full vision in the sewing area.
- Will repair from thin panels and borders up to thick and dense quilt packages.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
