

Rollflex

Roll-Coat Adhesive Machine

Adhesive machine from Quarrata Forniture uniquely analyzes and automatically distributes the right amount of adhesive for each mattress component passing through.

SPECIFICATIONS	Rollflex
Adhesive Roll Diameter	246 mm
Dosing Roll Diameter	216 mm
Roll Width	2250 mm--Rolls tolerance: +/- 0,03 mm
Speed	Adjustable 0 / 30 m/min
Thickness Adjustment	Automatic, electronically controlled
Adhesive Tank Re-filling	Automatic
Dimensions (based on standard machine)	2100 x 2900 x 1950 (h) mm (+ control board)
Weight (based on standard machine)	2000 kg
Construction	Main frame in 8 mm thick solid steel
Installed power	6 Kw
Compressed Air	6 bar, 85PSI

Rollflex is an adhesive roll-coating machine for foam bedding products based on rolled application technology for one-component, water-based adhesive. The machine uses a gluing and dosing roll, built with amazing mechanical accuracy to ensure top precision in controlling the quantity of adhesive applied.

- Electronic dosing control is managed by centesimal mm-precision sensors.
- Stainless steel rolls ensure chemical and physical compatibility with any kind of adhesive.
- Large-diameter rolls reduce the mechanical stress of the product used.
- Unique surface of the rolls allows use of either high- or low-viscosity adhesives.
- Able to automatically adjust to the thickness of the materials to be bonded.
- All parameters are controlled via a full-color touchscreen.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
