POM-500 Overlock Machine

The ideal overlock machine for finishing the edges of your specialty tick mattress covers. The POM-500 trims and secures your unit with an overlock and safety stitch. The POM-500 is a great machine to finish off your pre-cut specialty ticking and zipper covers. After they're cut out, this machine trims a clean edge, overlocks, and adds a safety stitch for a secure edge, preparing it for downstream processes. It can be used to close up the cover corners, too.

Features & Benefits

- Recommended sew speed: 2800 rpm
- Panel thickness: 1/8 in. to 1 in. (3mm to 25 mm)
- Seam width: 5mm overlock
- Air pressure: 80 psi

Specifications

Max Sewing Speed 3200 RPM

Recommended Sewing Speed 2800 RPM

Max Panel Thickness 1" (25.4 mm)

Min Panel Thickness 1/8" (3 mm)

SPI 4 to 5

Seam Width 5 mm overlock

Presser Foot Height 1/2" (12.7 mm)

Needle Type DC x 27

Needle Size #14

Voltage 220 (alternative voltages available)

Current 3 amps

Air pressure 80 psi

Air consumption (cfm) 1 cfm

Weight (gross) 405 lbs. / 184 kg

Shipping Dimensions 59 x 34 x 51" / 150 x 86 x 130 cm
