Quarrata Rhyno Mattress Press

The Quarrata mattress press provides two tons of even pressure to bond layers of glued materials together. Adjustable features ensure a solid seal for assembly of every type of bedding products.

The pneumatic drive uses four powerful cylinders of 125 mm bore. The electronic control system and color touchscreen are advanced, simple, and user-friendly. Adjust the machine to the characteristics of the adhesive and coated materials for optimal performance. The system allows you to freely set a variety of pressure parameters. A resettable counter shows how many mattresses have been produced.

Specifications

External dimensions 280 x 220 cm

Height 210 cm (including pneumatic cylinders)

Inside conveyor belt dimensions 2250 x 2200 mm

Pressure up to 2 tons

Safety In/out light barriers

Controls Touchscreen
